Session Roadmap 4: Working through Change

Session Roadmap 5: Dealing with Conflict

Session Roadmap 6: Press the reset button for the New Year

Q&A Live Session

Book your Q&A time with our experienced facilitators

Module 14: Assignments

How to receive your certificate as a LEGO® SERIOUS PLAY® facilitator

The session plan:

Prepare a basic session plan that provides a guide for the way in which the session will progress.

For example, you could include:

- How will you start the session?
- Which challenge questions will you ask the group?
- How long will each challenge take?
- How will you wrap up the session?

Keep it simple and no longer than 1 page.

The video:

Select a group of between 3-5 people, prepare your bricks and the questions you will use in the session and capture 5x 2 minute or 10x 1 minute extracts of yourself facilitating the session.

The people present in the facilitation session can be your friends and family, assure that you have their permission to shoot the videos. The bricks don't need to be official LEGO® SERIOUS PLAY® sets.

What can you expect to learn on your LEGO® SERIOUS PLAY® Live Classes?

As complementary learning, we offer **2x 2 hour sessions** for a deeper dive into the methodology, where you will be able to learn advanced techniques and tips from our skilled facilitators.

Learn more about:

- Ensure that you manage 'tricky' situations well so that the group remains in flow.
- Grow in confidence as you facilitate sessions in both smaller and large groups so that your road maps/session plans come to life.
- Bring your sessions to a successful conclusion so that the group feels that they have achieved their goals.
- Prepare to deliver in both in-person and virtual settings so that you use the methodology effectively.
- Review a range of different road maps so that you can be flexible in terms of meeting client requirements.
- Develop different challenge questions to move the participants towards expressing their views and ideas in line with the session objectives.
- Use the methodology in a coaching type setting so that you have the option of working one on one with clients.
- Introduce the 'what the duck' method for large groups or for quick sessions where there isn't sufficient time for the full process.
